

## **KRONENDAL DISCIPLINE POLICY**

Our discipline policy document lists infringements and courses of action ranging from disruptive classroom behaviour, inappropriate dress code, to bullying and substance abuse. Punishments range from a demand for a suitable apology to requesting the WCED to remove the child from the school in order to protect the other children.

At Kronendal we believe that a consistent, but thorough school discipline policy is extremely important for the well-being and security of the working environment of our children. Our focus is to engender life skills which promote a culture of tolerance, courtesy and consideration for others. Our purpose is to assist the child to be able to function effectively in society.

Our discipline approach is based upon a code of conduct which encourages the children to respect and love themselves and others. With this foundation we encourage our children to respect the rights of others. The children are urged to behave in such a way that they enable each member of the school community to enjoy their right to a safe and happy educational environment.

Parents are requested to support our teachers in order to promote a culture of tolerance, courtesy and consideration for others.
